

SLUDGE TO CALCIUM PLANT

Convert Paper Mill Waste Sludge
into Valuable Calcium Carbonate

Installed & Commissioned by
Maya Machinery Pvt Ltd

India's First Such Plant

Paper mills across India face a major challenge in managing and dumping waste sludge. Maya Machinery Pvt Ltd offers an innovative solution that converts paper mill waste sludge into useful calcium carbonate, helping mills reduce disposal problems and create value from waste.

KEY BENEFITS

Converts paper mill waste sludge into useful calcium carbonate

Reduces sludge disposal and landfill burden

Supports sustainability and circular economy goals

Helps recover value from industrial waste

Engineered, installed and commissioned by
Maya Machinery Pvt Ltd

Paper Mill
Waste Sludge

Processing

Calcium
Carbonate

WHY PAPER MILLS SHOULD CONSIDER THIS PROJECT

1

Solve the waste sludge dumping problem

2

Improve environmental compliance and sustainability profile

3

Turn waste into a usable value-added product
